

BLM Resource Advisory Councils

Partners Across The West

Kenneth Emory

Biographical Sketch, Southwest RAC Member

Prior to calling western Colorado home, Ken's family made Colorado their recreation destination for over 20 years. When Ken retired six years ago he and wife Bonnie moved to the Montrose area. He enjoys four-wheeling and exploring the region's beauty and history.

We think Ken may be busier now than when he worked for a living. In addition to serving his first term on the RAC as a representative of the OHV community in Category 1, Ken is involved in our region's land use issues in several other ways. He is a member of the new Colorado Recreation Resource Advisory Committee, as well as the Public Lands Partnership. He works one day a week as a volunteer at the front desk of the Montrose Public Lands Center. And, he is the Land Use Officer for the Colorado Association of 4WD Clubs, the Western Slope 4 Wheelers Club, and the Montrose Rod and Gun Club.

As a RAC member, Ken feels it's important to keep areas open for motorized recreation. Public land issues and maintenance of trails and roads are of special interest to Ken.
